**15. Segment reporting**

Segment reporting include a business segment or a geographical segment.

A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

**16. Financial instruments**

**Initial recognition**

*Financial assets*

At the first date of recognition, a financial asset is measured at its fair value, plus transaction costs that are directly attributable to the acquisition of that financial asset.

The Company's financial assets include cash and short-term deposits, trade and other receivables, loan receivables and investments.

*Financial liabilities*

At the first date of recognition, a financial liability is measured at its fair value, minus transaction costs that are directly attributable to the issue of financial liability.

The Company's financial liabilities include trade and other payables and loans.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if and only if:

- There is a currently enforceable legal right to offset the recognised amounts; and
- There is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

**17. Related party**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

## 12. Current business income tax expenses

Business income tax payable is determined at the rate of 20% of taxable profit.

Tax settlements of the Company and its subsidiaries are subject to examination by the tax authorities. Because the application of tax laws and regulations with many types of transactions is susceptible to varying interpretations, amounts reported in the financial statements could be changed at a later date upon final determination by the tax authorities.

Current business income tax expenses are calculated as follows:
